UNH Experts Available to Discuss U.S. Poverty Trends

DURHAM, N.H. – Researchers from the Carsey School of Public Policy at the University of New Hampshire are available to discuss trends in U.S. poverty in advance of new poverty data to be released by the U.S. Census Bureau this week.

[Beth Mattingly](#)

Director of research on vulnerable families

240-593-4297; beth.mattingly@unh.edu

Mattingly can discuss child poverty and how different family policies affect rural, suburban, and urban families, how families adjust their labor force behavior during times of economic strain, and how growing up in poverty influences life outcomes. She also can discuss public policies and programs that support low-income families, including the Earned Income and Child Tax Credits, the Supplemental Nutrition Assistance Program (formerly known as food stamps) and public health insurance. Additionally, she can discuss several poverty-related issues including how families cope with economic distress. Mattingly can also address poverty measurement and the implications of the research supplemental poverty measure.

[Jessica Carson](#)

Vulnerable families research scientist

603-862-3215; Jessica.carson@unh.edu

Carson can discuss child poverty and how different family policies influence rural, suburban, and urban families. She also can discuss public policies and programs that support low-income families, such as the Supplemental Nutrition Assistance Program (formerly known as food stamps) and public health insurance. She is working on a long-term project that examines the issues facing families living in different types of rural counties and aims to highlight the strategies that best support struggling families.

[Andrew Schaefer](#)

Vulnerable families research associate

603-862-3603; Andrew.schaefer@unh.edu

Schaefer can discuss child poverty and how different family policies influence rural, suburban, and urban families. He also can discuss the spatial distribution of the growing racially diverse young child population in the U.S. as well as the spatial distribution of America's poor children since the 1980s. He is currently working on a project using the research supplemental poverty measure to examine impacts of the Earned Income Tax Credit and the Child Tax Credit on supplemental child poverty rates across racial/ethnic categories and across place.
